

DRUG PREAUTHORIZATION LIST

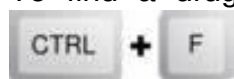

In an effort to promote the appropriate use of certain drugs and to help better manage the cost of expensive drugs, the ConnectiCare Pharmacy & Therapeutics Committee has developed a list of prescription drugs that require preauthorization. Members with Point of Service (POS) plans receiving out-of-network care are responsible for initiating this process. When submitting a request for Preauthorization, please use a Preauthorization form which can be obtained from [ConnectiCare.com](https://connecticare.com). If the prescribed drug is approved, the prescription will be filled as usual at a participating pharmacy or administered by a provider (where appropriate).

Note: Self-administered medications (i.e., interferons), even those not on this list, may not be dispensed for self-administration and billed through the medical benefit by a provider. They must be dispensed through a participating pharmacy.

Key:

(^m) - Medical

To find a drug, use the search feature within your web browser by keying

on your keyboard.

You may also browse the table alphabetically or click on a letter to go that section of the list.

Medications All drugs listed here require preauthorization.	
Abecma ^m
